Itinerary Day to Day

Day 1: Arrival in Poreč/Vrsar

Info meeting with tour representative at 7pm at the hotel reception area where we will provide you with the package including hotel vouchers, bicycle with all equipment, maps and a road book. Overnight in Poreč/Vrsar.

Day 2: Poreč - Buje 78 Km

Our cycling tour of Istria will start with a ride around Poreč, the town where you can find material and spiritual evidences of great cultures at every step. Walk along the old city center and you will find there the Roman Forum, magnificent palaces from different historical periods, and to top it all, the famous

Euphrasian Basilica (Euphrasiana). The ride along this trail is particularly pleasant because you are riding along the coastline with beautiful bays, where you can enjoy the breathtaking Mediterranean landscape with green vineyards and olive groves and taste homemade food, wine, brandy and honey produced in this area. Continuing along the trail, you will reach Višnjan, a little place that vaunts an astronomical observatory ranked among the five most important observatories in the world. Passing by Mirna river delta and Novigrad you'll arrive in Umag. Umag is a town that, apart for its incandescent Riviera, vaunts a rich historical heritage and a unique event – the festival of the traditional organ (Organum Histriae). Situated on a peninsula and founded in the transitional period from late antiquity into the early middle age, it has a historic center that loudly speaks with the spirit of the old Venetian Republic. Continuing to northernmost point of istria (Savudrija) and finishing first day in Buje area.

Day 3: Buje- Buzet 51 Km

On the way to Buzet we will ride across Grožnjan – a typical Istrian medieval town sprout high on top of the hill along the right coast of the river Mirna, vaunting its centenary walls, its renaissance loggia dating from 1585 and the beautiful St. Vitus and Modesto's baroque church. If you just occasionally ride along its streets in which almost every door leads to art studios or galleries, and which windows from every direction echoes the sounds of different music genres, from classical to jazz, you'll understand why Grožnjan is known as "the town of artists". Šterna – a village named after a big local cistern (on local dialect – Šterna) situated on the large plateau intersected by water flows. Oprtalj, with unchanged

urban medieval disposition, the narrow streets, the shops, the beautiful Venetian palaces, portals and covered passages, and particularly the unique view to the Istrian peninsula from the town loggia, according to many the most beautiful of Istria. Buzet, known as long as in the Roman times as Pinquentium, today is named as "the City of truffles", considering that the surrounding forests along the valley of the river Mirna cover some of the best areas of the entire Istria for the hunting of this divine tuberous fungus. Overnight in Buzet.

Day 4: Buzet - Labin 66 Km

After a steep climb to Prodani the road leads to one of the most attractive and picturesque Istrian medieval towns – Draguć. The place which, until some hundred years ago lived from the cultivation of the silk worm today is almost completely abandoned. However, its unforgettable natural position and the exceptional beauty of the stone architecture, the modest palaces, the walls and the old churches, perhaps could seem better known. Considering that right here there have been recordings of numerous national and foreign production movies and TV series, like the movies "The 3 Musketeers". Pazin – a true heart of Istria! First written records referring to the city as Castrum

Pisinum appeared in 983 and presently, Pazin is known as a commercial, cultural and educational center of entire central Istria. Unique for its spectacular position above the abyssal cave, Pazin holds the medieval Castle – Kaštel (today, the Ethnographic Museum of Istria and the Municipal Museum are both in the castle) located on the verge of a 130 meters deep abyss. From Pazin you pass through Gračišće, an absolute pearl of the Istrian hinterland. The entrance into this town can be really enchanting: a magnificent Salomon Mansion made in the combination of gothic and renaissance styles, it makes you think for a moment as if you were lost in some distant corner of Venice. Continue further through Kršan, feudal land property, having obtained its name for the rockiness of the spot and at the same time, was erected on the foundations of an ancient early medieval burg, we arrive in Rabac, the pearl of the Kvarner bay. Overnight in Labin/Rabac.

Day 5: Labin - Pula 53 Km

After breakfast we ride across Raša, the first modern mining town in Istria and Barban to Pula. On the way you will find "Liburna", a nature reserve of autochthon animals. Apart from these charming animals, in particular sociable donkeys, you will find here a unique ethnological collection of antique tools. Which city is situated on seven hills, has a magnificent Amphitheater and is not Rome? The answer is - Pula. No, it is not a mistake – you are, indeed, in front of Pula, the largest city in Istria. Pula is an enchantress with a thousand appearances which has been casting spell on its visitors for centuries. This day we finish visiting the old city with the Sergius' Triumphal Arch (from the end of the 1st century B.C. and the beginning of the 1st century A.D.) and famous Arena, a Roman amphitheater (from the 1st century B.C.). Overnight in Pula.

Day 6: Pula - Rovinj 56 Km

After breakfast we ride along the coastline towards Rovinj. You will head for the mysterious world of Bale region, proud for its glorious Soardo-Bembo Castle of the Gothic and Renaissance period and the parish church of St. Julian. Bale had been developed from the ancient Roman castrum (military fortification) along Via Flava, the ancient Roman road that used to connect Trieste and Pula. Svetvinčenat, with its grandiose Morosini-Grimani citadel with towers, parish church, municipal loggia and a line of 16th century houses of the Renaissance and a town cistern - šterna in the middle, Savičenta really belongs to a range of the most attractive Venetian creations of that period effected in this region, and which held one of the rare witchcraft trials in Istria during 17th century. This day finishes in Rovinj.

Day 7: Rovinj - Poreč 60 Km

A marsh, rare birds, a cursed city, buried pirate's treasure, a fjord, a cave with a primitive man and a hermit, an ancient solar observatory - all this you will find today biking. Our bike ride will take us across Kanfanar to the ruins of the medieval town of Dvigrad. Just to stir your imagination - you are now in an area where many legends and mysteries based on historical events still live on: that of Dvigrad devastated by the plague because of an ancient curse, of the buried treasure of Captain Morgan's pirates near the village named after him (Mrgani), of the cave where the remains of the primitive man were found and where, as legend has it, St Romuald used to live as a hermit in the Middle Ages. After

riding along the coastline you will reach Vrsar, a romantic fishermen village where the famous Casanova came back even two times. This one week bike tour finishes in Poreč/Vrsar where you will spend the last night.
